SUMMARY

Data-driven and analytical professional with expertise in uncovering insights, optimizing business performance, and enhancing decision-making through statistical analysis and visualization. Proficient in Python, SQL, Tableau, and machine learning techniques, with a strong ability to translate raw data into actionable strategies. Possesses excellent problem-solving, collaboration, and critical-thinking skills.

SKILLS

- **Data Analysis & Visualization:** Python, SQL, Excel, Tableau, SAS, Statistical Modeling, Data Mining, MIS Report, Looker Studio
- **Machine Learning & Predictive Analytics:** Pandas, NumPy, Scikit-learn, Regression Models, Time Series Analysis
- **Database Management:** SQL (MySQL, PostgreSQL, PL/SQL), Data Warehousing, ETL Pipelines
- **Soft Skills:** Problem-Solving, Communication, Attention to Detail, Adaptability, Strategic Thinking, Teamwork

EXPERIENCE

Accenture Data Analytics and Visualization Job Simulation(Forage)

- Completed a simulation focused on advising a hypothetical social media client as a Data Analyst at Accenture
- Cleaned, modelled and analyzed 7 datasets to uncover insights into content trends to inform strategic decisions
- Prepared a PowerPoint deck and video presentation to communicate key insights for the client and internal stakeholders

Tata Data Visualization: Business Insights Simulation (Forage)

- Designed interactive dashboards and data visualizations to support high-level decision-making.
- Conducted exploratory data analysis (EDA) to identify trends and patterns, ensuring data-driven insights.
- Collaborated with stakeholders to define business problems and present data-backed recommendations.

PROJECTS

Superstore-Sales Dashboard – Tableau.

- Developed an interactive dashboard to monitor revenue, profit margins, and sales trends.
- Integrated multi-source data (Excel, SQL) and implemented KPI tracking.
- Created custom visualizations and filters for in-depth analysis.

Ferns and Petals Sales Analysis link

- Processed and cleaned large datasets using Python (Pandas, NumPy) for accurate insights.
- Built an Excel dashboard with Pivot Tables and Charts to analyze revenue trends and customer behavior.
- Evaluated order processing and city-wise sales performance for strategic decision-making.

Zepto Inventory Analysis | SQL + Tableau link

- Designed and analyzed a fictional quick-commerce inventory system using MySQL, performing data cleaning, product segmentation, and business-driven queries.
- Built an interactive Tableau dashboard to visualize inventory weight by category, revenue potential, price-per-gram efficiency, and restocking insights.
- Applied business intelligence principles to identify high-value product gaps, pricing anomalies, and promotional opportunities.

EDUCATION

Master of Computer Applications (MCA) – Graphic Era Hill University

Bachelor of Computer Applications (BCA) – HNB Garhwal University
